

SECOND MINI SYMPOSIUM ON GLOBAL CHILD HEALTH

PRIVATE SECTOR MEETS ACADEMIA

22 MARCH 2024, GREEN TEMPLETON COLLEGE, OXFORD, UK

Confirmed speakers: Prof. **Michael Cappello** (Chair, Department of Epidemiology of Microbial Diseases, Yale School of Public Health) | Dr **Katy Hayward** (Senior Global Medical Leader RSV/hPMV AstraZeneca Vaccines and Immune Therapies) | Prof. **Manu Vatish** (Deputy Director for Maternal and Child Health Discovery, Gates Foundation)

Hosted by Green Templeton College, Oxford and the European Society for Paediatric Research, this Mini-Symposium aims to:

- promote knowledge exchange and debate between commercial and non-commercial actors in neonatal and paediatric research
- understand synergies between industry and academia and align their efforts to improve global health
- create networking opportunities between industry, philanthropy and academia.
- Encourage dialogue between global health experts and early career researchers

With **plenary sessions, working groups**, and an early-career **poster competition** on 'Challenges and opportunities for research in Global Child Health'
